Nadia Flexner, MPH, PhD

Curriculum Vitae

|E-mail: nflexner@advocacyincubator.org |

Education

PhD |Nutritional Sciences
Department of Nutritional Sciences
University of Toronto, Toronto, Canada
Supervisor: Dr. Mary L'Abbé
Thesis title: Estimating the dietary and health impact of food policies aiming to improve the Canadian food environment: a policy scenario modeling analysis

MPH |Public Health Nutrition
Milken Institute School of Public Health
The George Washington University**,** Washington, D.C., USA
Supervisor: Dr. Kim Robien
Culminating experience title: Changes in fruit and vegetable intake among participants in a farmers' market healthy food incentive program

B.A. |Business Administration
Universidad Ricardo Palma, Lima, Peru

Presentations

Flexner N. *Front of package labelling in Canada.* 2025 Healthy Caribbean Coalition Regional Webinar: Global Updates on Front of Package Warning Labelling. Barbados, May 16, 2025.

Flexner N. *Mandatory sodium reduction targets.* 2025 PAHO/WHO Regional Webinar: Advances in Salt Reduction in the Americas. Washington, DC, USA, May 13, 2025.

Flexner N. *Estimating the dietary and health impact of food policies aiming to improve the Canadian food environment: A policy scenario modeling analysis.* The George Washington University Distinguished Seminar Series. Washington, DC, USA, October 18, 2024.

Flexner N. *Ultra-processed foods and the challenges for the reduction and control of chronic diseases.* 2024 The Americas Network for Chronic Disease Surveillance (AMNET) Conference. Lima, Peru, October 11–12, 2024.

Flexner N. *The potential health impact and healthcare cost savings of different sodium reduction strategies in Canada.* Indian Association for the Study of Population Distinguished Lecture Series. New Delhi, India, May 20, 2024.

Flexner N. *Nutrient profile models and front-of-package labeling: Best practices and lessons learned.* Consultation Meeting on Front-of-Pack Labelling (FOPL): Relevance and Practice. Institute of Economic Growth, Delhi. New Delhi, India, April 4, 2024.

Flexner N. *Advances in policies to reduce population-level sodium intake in the Americas and the experience of Canada.* 2023 SLAN, XX Latin American Nutrition Congress. Symposium: Consumption, Sources, and Impact on National and Regional Sodium Reduction Policies in the Americas: Need for Evaluation of Interventions. Cuenca, Ecuador, October 21–26, 2023.

Flexner N. *Applying food classification criteria to assess the healthfulness of the Canadian food supply.* 2023 IAFNS Workshop: Considerations for Formulation and Degree of Processing in Food Classification Systems to Support Research. Washington, DC, USA, May 16–17, 2023.

Flexner N. *Mapping of policies and initiatives to reduce sodium consumption in the region of the Americas.* 2021 PAHO/WHO Regional Webinar: Advances in the Region About Strategies for the Reduction of Salt Consumption. Washington, DC, USA, March 11, 2021.

Flexner N. *Sodium policy progress in the Americas region.* 2021 PAHO/WHO Technical Advisory Group (TAG) Meeting: Update Harmonized Regional Sodium Reduction Targets and Closure of Phase 3 of the TAG. Washington, DC, USA, February 4–5, 2021.

Awards

Training Award: Canadian Institutes of Health Research SMART Healthy Cities Training Award, 2022-2023.
Travel Award: Canadian Institutes of Health Research SMART Healthy Cities Travel Award, 2022.
Travel Award: Canadian Nutrition Society Conference, Christine Gagnon Memorial Travel award, 2022.

Public Health Experience

Global Health Advocacy Incubator, Washington D.C.
Associate Director of Research | Nov. 2023 – present|

- Ensure that the best and most recent research is brought to bear on policy advocacy campaigns in priority countries.
- Develop standardized procedures to compile and analyze secondary research and to develop primary policy-oriented research (train the trainer's approach).
- Conduct secondary research and develop in-depth knowledge and expertise on key policy issues to support the advocacy efforts of the program and partners.

- Conduct technical capacity-strengthening workshops for partners, focusing on best practices and country experiences related to key food policies.
- Provide policy analysis to support country campaigns.
- Provide strategic guidance to the team for resources and material development, including databases/repositories.
- Collaborate in the development of training curriculum on research for advocacy for different audiences.
- Coordinate the development of key reports and scientific publications to position GHAI as a thoughtful global leader in Food Policy.

Notable Accomplishments

- Led the development of research protocols to assess the nutritional quality of processed and ultra-processed products and to test different **Nutrient Profile Models** across national packaged food supplies, using data from the Mintel Global New Products Database.
- Provided technical support for the development of national **Nutrient Profile Models** in Uganda, Ethiopia, Jordan, the Philippines, and Indonesia.
- Led the development of GHAI's position paper on Mandatory Sodium Reduction Targets for Processed Foods.
- Delivered technical and research-for-advocacy sessions for partners across multiple countries, including China, India, Pakistan, Bangladesh, the Philippines, and Indonesia (Asia); Ethiopia, Kenya, Nigeria, Tanzania, Uganda, and Zimbabwe (Africa); and Uruguay (Americas).
- Supported local research efforts to inform national policies on nutrient profiling, front-of-package labelling, sodium reduction targets, and trans-fatty acid elimination across Latin American, African, and Asian countries.

Pan American Health Organization (PAHO/WHO), Washington D.C.
Risk Factors and Nutrition Consultant | Mar. 2022 – Sept. 2022|

- Supported the process of data collection, analysis, and reporting of sodium levels in packaged food products in Argentina, Panama, Costa Rica, and Peru.
- Supported activities for the adoption of stricter mandatory sodium content targets in Argentina, in line with the Updated PAHO Regional Sodium Reduction Targets.
- Supported activities for the transition from voluntary to mandatory policies, and the adoption of the Updated PAHO Regional Sodium Reduction Targets in Costa Rica, Ecuador, Panama, Peru, and Uruguay.
- Provided technical support (strategic meetings, country missions, briefs and other supporting materials and guidance) to facilitate the adoption and implementation of the Updated PAHO Regional Sodium Reduction Targets and other cost-effective salt/sodium reduction initiatives in Argentina, Bolivia, Costa Rica, Ecuador, Panama, Peru, and Uruguay.
- Prepared reports on the progress of the project.

Notable Accomplishments

- Analyzed data and prepared final regional report on monitoring sodium and industrially produced trans-fatty acids content in packaged products in four Latin American countries.

Pan American Health Organization (PAHO/WHO), Washington D.C.
Risk Factors and Nutrition Consultant | Apr. 2020 – Mar.2021|

- Supported the development and adoption of updated regional sodium reduction targets.

Notable Accomplishments

- Analyzed data and prepared the PAHO report Mapping dietary salt/sodium reduction policies and initiatives in the Region of the Americas.
- Collaborated in the development of the Updated PAHO Regional Sodium Reduction Targets 2021-2025.
- Supported the organization of the regional strategic meeting of the PAHO Technical Advisory Group (TAG) that guides the regional initiative *Preventing Cardiovascular Disease by Reducing Dietary Salt Intake Population-wide* – where updated regional sodium reduction targets were approved.
- Presented an overview of salt reduction initiatives in the Americas at the two-day final meeting of the PAHO/WHO TAG.
- Prepared the final report of the PAHO/WHO TAG (2016-2018).

Pan American Health Organization (PAHO/WHO), Washington D.C.
Risk Factors and Nutrition Consultant | Aug. 2017 – Aug.2019|

- Developed written reports and briefings to communicate and summarize findings of literature reviews, mapping of nutrition related policies and interventions, and strategic regional meetings.
- Reviewed and collaborated on the development of technical documents, grant proposals, protocols, technical briefs, policy briefs, and website content on nutrition topics.
- Reviewed and provided technical feedback on country case studies and reports on topics such as sustainable food systems, reduction of salt/sodium consumption strategies, child food and nutrition programs, breastfeeding and complementary feeding, and obesity prevention policies.
- Planned, participated, and collaborated in management evaluation reviews of grants assigned to the Risk Factors and Nutrition Unit.
- Analyzed and provided technical assistance on all aspects of assigned projects to the Risk Factors and Nutrition Unit.
- Organized different regional events such as workshops, conferences, webinars, and meetings.
- Developed a dissemination strategy on the objectives and activities of regional symposiums, workshops, conferences, and webinars for countries to encourage their participation.
- Prepared background documents, talking points for meetings and presentations, concept notes, presentations, and other technical documents as required.

Notable Accomplishments

- Coordinated and supported the development and implementation of the online self-learning course "Social Marketing for Public Health."
- Coordinated and collaborated on the development of a PAHO protocol for a study that aimed to determine the content of critical nutrients (fats, sodium, and sugar) on packaged food products through the reading of nutrition facts labels in the Latin America and Caribbean (LAC) region.
- Supported PAHO and FAO Regional offices in organizing the Regional Symposium on Sustainable Food Systems for Healthy Eating - El Salvador, September 4-6, 2017.
- Contributed to the development of the report of the Regional Symposium on Sustainable Food Systems for Healthy Eating - El Salvador, September 4-6, 2017.
- Developed content for a brochure on key nutrition policies and interventions to improve malnutrition in all its forms from a sustainable food system approach (FAO-PAHO/WHO).
- Supported the organization of the Stakeholder Consultation on Adolescent Girl's Nutrition - PAHO, SPRING, and USAID - Washington D.C, October 30-31, 2017.
- Contributed to the revision and dissemination of the Stakeholder Consultation on Adolescent Girl's Nutrition report.
- Performed a mapping on salt/sodium reduction policies, laws and regulations in the LAC region.
- Developed data and prepared results, summary and presentation of the mapping on salt/sodium reduction policies, laws and regulations in the LAC region that was presented in the meeting of the

Technical Advisory Group on "preventing cardiovascular disease by reducing dietary salt intake population-wide" – PAHO Washington D.C, October 25-26, 2017.

- Prepared and validated country profiles on salt/sodium reduction policies, laws and regulations in the LAC region, following the WHO SHAKE technical package strategies.
- Organized and coordinated the celebration of the PAHO's Salt Awareness Week 2018 and 2019, to include a regional webinar, cooking class and content development for social media and web page.
- Organized and coordinated the celebration of PAHO's World Breastfeeding Week 2018 and 2019, to include a regional webinar, and content development for technical brief, presentation, social media and web page.
- Contributed to the revision and publication of the annual interagency publication "Panorama of Food and Nutritional Security in Latin America and the Caribbean" 2017 and 2018 (FAO, PAHO/WHO, UNICEF, and WFP).
- Organized and coordinated the launch for the Americas of the WHO technical package to eliminate industrially produced trans fats from the food supply "REPLACE," to include a regional webinar, and content development for social media and web page.
- Organized and coordinated the 56th PAHO Directing Council – Side Event "Trans- fat Free Americas," and developed content for presentations, social media and web page.

United States Department of Agriculture (USDA), Alexandria, VA
Food and Nutrition Service Intern | Jun. 2017 – Jul. 2017|

- Assisted in the development and revision of nutrition education materials for health promotion.

Notable Accomplishments

- Tested and provided feedback on new nutrition analysis software to be approved for use in child nutrition programs.
- Analyzed submitted recipes to ensure Child Nutrition criteria and entered approved recipes into the "What's Cooking?" website.

The World Bank, Washington D.C.
2017 World Bank Conference on Land and Poverty Consultant | Jan. 2017 – Mar. 2017|

- Provided registration and logistical assistance to successfully execute the conference.
- Monitored and provided logistical support for sessions and workshops during the conference.
- Assisted in different tasks for the organizing team of the World Bank Land & Poverty Conference 2017.

Pan American Health Organization (PAHO/WHO), Washington D.C.
Risk Factors and Nutrition Intern | Dec. 2016 – Mar. 2017|

- Assisted in the development and revision of nutrition education materials for health promotion.
- Prepared presentations and talking points on different nutrition matters for the Regional Advisor.

Notable Accomplishments

- Identified and described the scope of dietary salt/sodium reduction policies, laws and regulations in place in the LAC region.
- Performed the data cleaning of the 2016 regional survey on dietary salt/sodium reduction policy.
- Conducted review of grey literature and peer review papers on dietary salt-sodium reduction in the LAC region.

Additional Professional Experience

BBVA Banco Continental, Lima, Perú
Leasing Executive |May 2011 – Aug. 2012|

- Executed loans to help manufacturing and public transportation companies in their early stage to reach their full potential through careful risk and commercial evaluation.
- Supported network offices in their leasing operations.
- Worked closely with suppliers to jointly identify and close new leases.
- Evaluated financial operations reported by suppliers.
- Prepared and submitted proposals to the credit risk unit.

Mi Banco - Banco de la Microempresa, Lima, Perú
Leasing Specialist | Mar. 2010 – Apr. 2011|

- Supported the network of assigned branches in their leasing operations.
- Analyzed and reviewed the lease proposals submitted by assigned bank branches.
- Provided training and support on product leasing for assigned bank branches throughout Peru.
- Provided seminars to customers and suppliers on leasing products and their best financing options.
- Worked closely with suppliers to jointly identify and close new leases.
- Handled commercial reports and participated in the risk committee.

HSBC Bank Peru, Lima, Perú
Personal Banker | Jul 2008 – Mar 2010|

- Built new portfolio of retail customers. Evaluated personal, mortgage, vehicle, and credit card loans.
- Managed and monitored business operations.
- Signed agreements with companies for payroll services.
- Served as acting business unit manager while unit manager was on leave and vacation.
- Handled commercial reports and participated in the risk committee.
- Identified and maximized cross-selling opportunities by closely reviewing each customer's profile.
- Developed and implemented sales campaigns to expand our customer base.
- Analyzed individual financial requirements for clients and provided personal assistance.
- Developed expertise on the policies and procedures for branch operations.

Scotiabank Peru, Lima, Perú
Personal Banker | Oct. 2002 – Jun 2008|

Skills and Competencies

- Public Health Policy
- Food and Nutrition Policy
- Data Collection & Analysis
- Dietary Assessment
- Nutrient Profiling
- Food systems
- Food Environments
- Simulation Modeling
- Population Nutrition Surveillance
- Epidemiology Knowledge
- Social Marketing
- Program M&E
- Program Planning
- Team Management
- Project Management
- Excellent Communication Skills
- Technological Ability

Technical proficiency

R Studio, STATA, SAS 9.4, ArcMap (GIS), WordPress, Microsoft Word, Excel, PowerPoint & Outlook.

Language Proficiency

Spanish: Native.
English: Fluent.
